

K R U P A

Made in India. With Pride  
A signature brand of ART GROUP

Established 1982

## INTRODUCTION

**F**or over 30 years, Art Group has been consistent in the manufacture and export of a wide range of superior quality Glass Beads, Machine Cut Chaton Beads, Seed Beads, Pressed Beads, Cup Chains, etc, that find its application in jewelry, garments, chandeliers, handicrafts and the likes

Art Group strives to maintain international quality standards by virtue of effluent treatment plants in all its factories. We want to be reckoned as a name that offers embellishments of international standards in ranges that widen with timeries. We want to be reckoned as a name that offers embellishments of international standards in ranges that widen with time

## Seed Beads

- ▶ Seed Beads are manufactured in different shapes mainly round, bugle and hexagonal.
- ▶ Our standard packing is 1 pound which is 450g.
- ▶ Sizes available are from 6/0 to 16/0 in different colors which can be opaque, opal and transparent. Different processes can be applied like Rainbow, Luster, Hematite, Silver line and color line.
- ▶ We can offer round beads in infinite color shades using dye that has passed rigorous testing for both hand wash and dry cleaning by international labs like Bureau Veritas, Intertek and SGS. Customers can either send physical sample of the required shade or can select shade from the pantone shade card.
- ▶ Our Products can be made REACH compliant (Lead free, Cadmium free etc) as per customer specification.
- ▶ Seed Beads are used in garments, Leather Accessories, Fashion Jewellery, Fashion Accessories, Handicrafts, wall hangings and many more.

## Pressed Beads

- ▶ Pressed Beads come in a large variety of shapes, sizes and color. At Art Group we believe that our wide range of Pressed Beads is a great element to stimulate and materialize your creativity.
- ▶ Our standard packing is either 1kg bag or one bunch which consists of 12 strings of 16 inches each.
- ▶ At ART GROUP we manufactured our own glass and our own moulds. Due to this we can keep offering new shapes of beads.
- ▶ Our Products can be made REACH compliant (Lead free, Cadmium free etc) as per customer specification.

Pressed Beads

# Machine Cut Chatons Beads

- ▶ Machine Cut Chatons, also known as Rhinestones, Crystals or Fashion Jewellery Stones are primary components used for producing fashion jewellery.
- ▶ At Art Group, we provide our end consumers with different quality levels of Machine Cut Chatons, namely, Premium A Star and K8, in sizes ranging from SS 3.5 to SS 55.
- ▶ The values of these stones are measured through its cut, clarity, color and durability. Art Group has maintained these values of machine cut chatons based on regular quality tests undertaken that include the k-test, heat resistance test, tape test, drop test and soldering test.
- ▶ We can offer our chatons with gold foil, silver foil or without foil as per customer requirement.
- ▶ Besides crystal Jewellery, these rhinestones are also used to produce semifinished products such as sew on cups, crystal chains, trimmings, bandings and other such fashion components that feature easy and direct application, which can then be used for embroidered products, handicrafts, fashion accessories etc.

Beads Mat

## Cabochon

- ▷ Cabochon refers to a bead that has been shaped and polished to create a smooth, convex top with a flat bottom.
- ▷ Because the bottom of Cabochon cut stones are flat, they can be glued into place, rather than "set" into mountings.
- ▷ At Art Group our Cabochon comes in a wide variety of colors and shapes like round, navette and pear, which can be used in a wide range of products.
- ▷ Sizes available in round shape are from 1.5mm to 6.5mm, in navette are 6\*3, 8\*4 and 10\*5mm and in pear it is 10\*6mm.

## Sew On Cup

- ▷ Sew on Cup is a product where a bead without a hole like a Machine Cut Chaton Bead is fitted in a metal cup, which could be made from metals like brass or aluminium.
- ▷ The Sew on Cup can be fitted with Machine Cut Chaton beads, fancy stones like revoli, navette, oval and pear.
- ▷ The Sew on Cup can be used in its raw form or it can be silver plated, gold plated and even copper plated.
- ▷ Sew on cups are manufactured in sizes ranging from ss12 to ss45.
